

# AVL Tree Visualization Steps

Step 1 of 42

Starting AVL tree visualization...

## Step 2 of 42

Inserting root node with value undefined

h:1

## Step 3 of 42

Starting insertion of value undefined

h:1

50

## Step 4 of 42

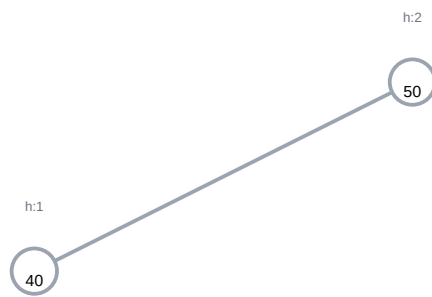

Traversing to insert undefined, currently at node 50

h:1

50

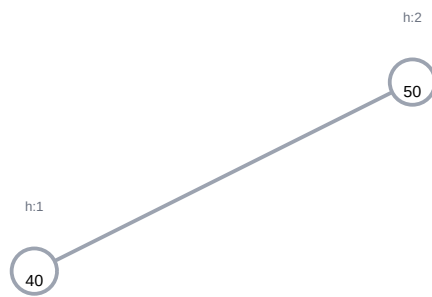

## Step 5 of 42

Value undefined inserted successfully

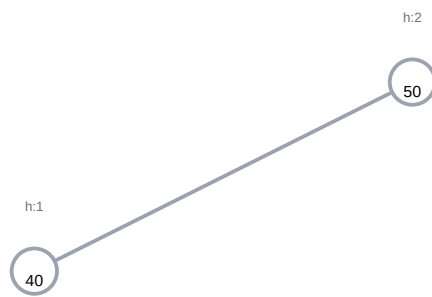

## Step 6 of 42

Starting insertion of value undefined

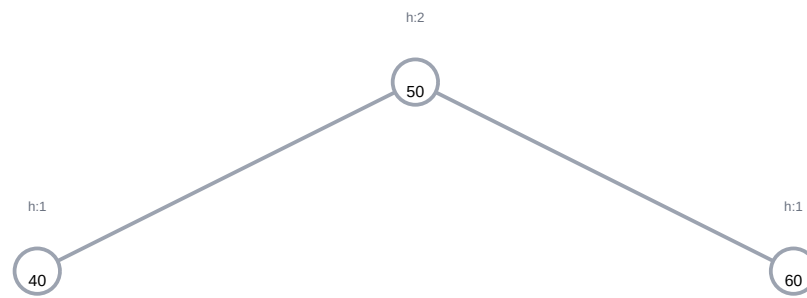

## Step 7 of 42

Traversing to insert undefined, currently at node 50

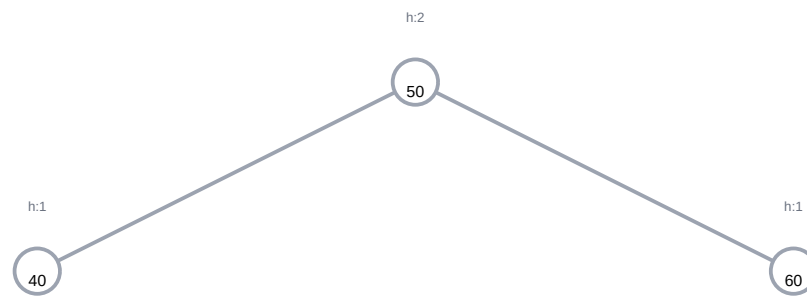

## Step 8 of 42

Value undefined inserted successfully

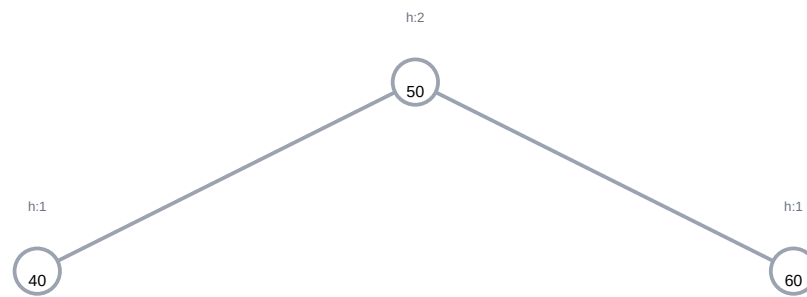

## Step 9 of 42

Starting insertion of value undefined

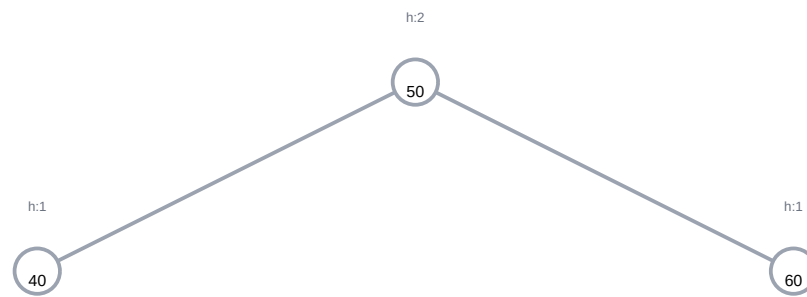

## Step 10 of 42

Traversing to insert undefined, currently at node 50

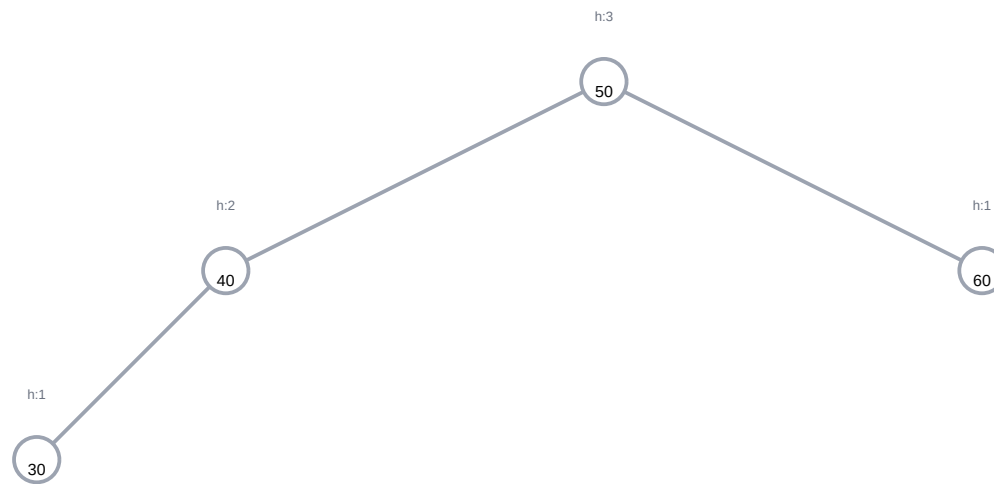

## Step 11 of 42

Traversing to insert undefined, currently at node 40

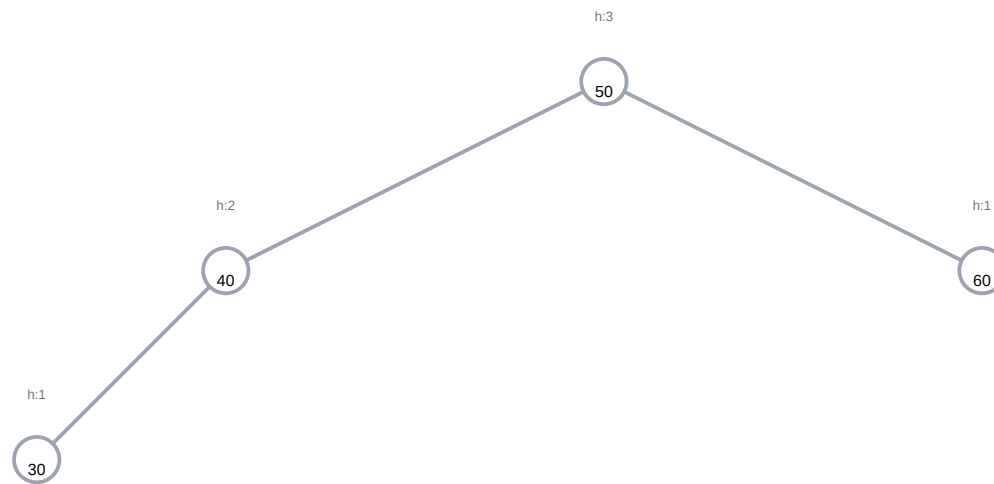

## Step 12 of 42

Value undefined inserted successfully

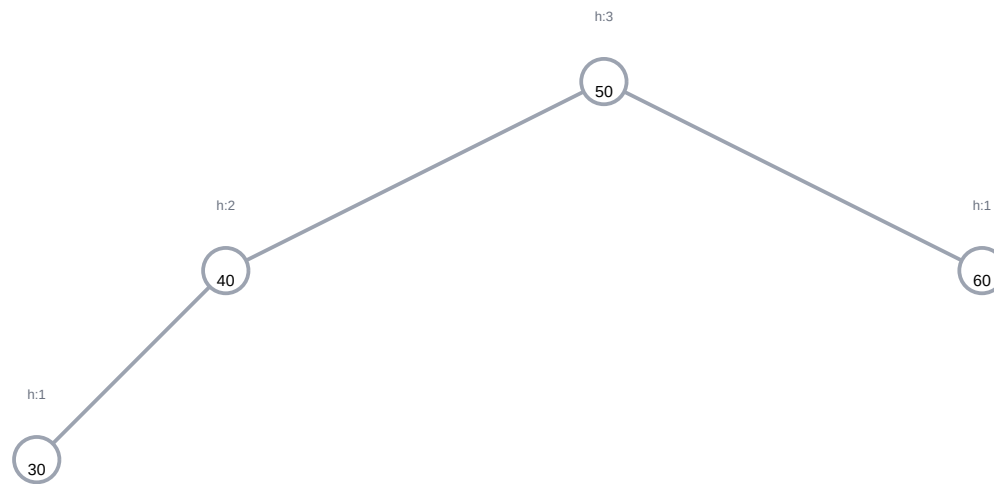

## Step 13 of 42

Starting insertion of value undefined

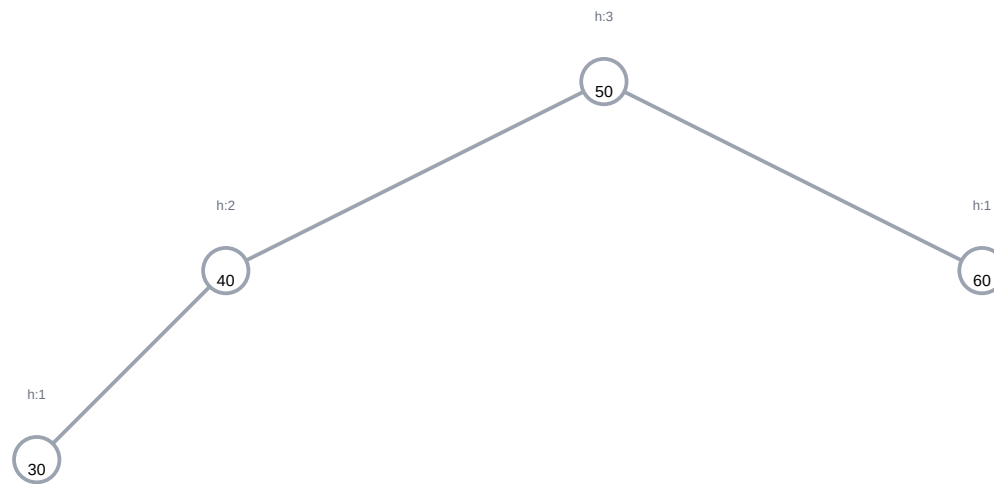

## Step 14 of 42

Traversing to insert undefined, currently at node 50

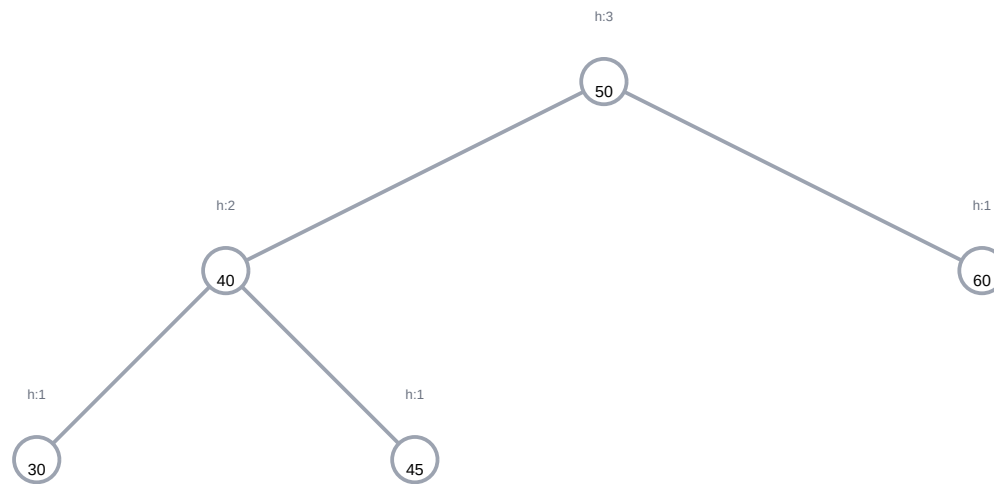

## Step 15 of 42

Traversing to insert undefined, currently at node 40

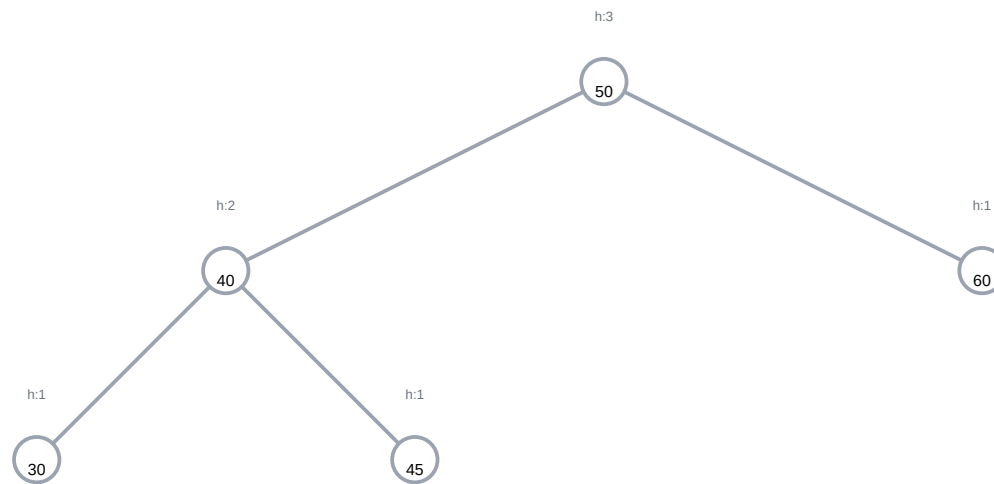

## Step 16 of 42

Value undefined inserted successfully

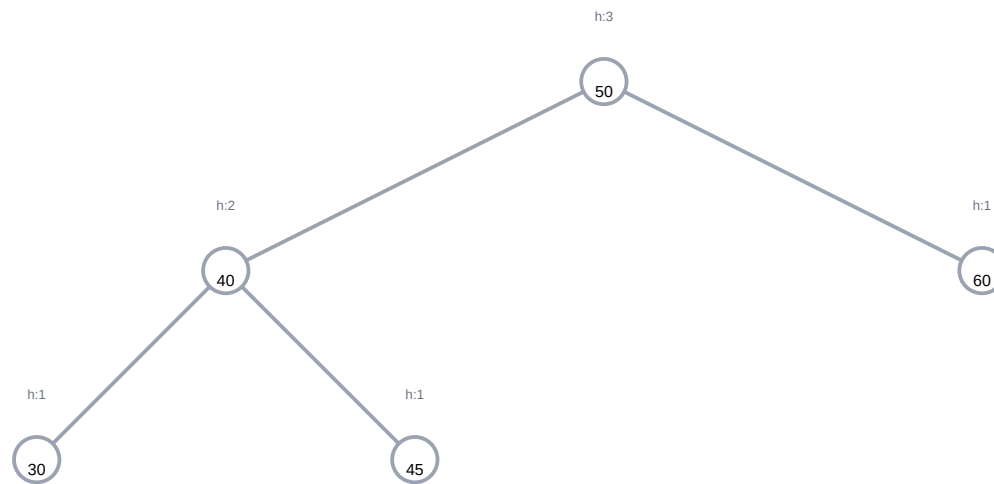

## Step 17 of 42

Starting insertion of value undefined

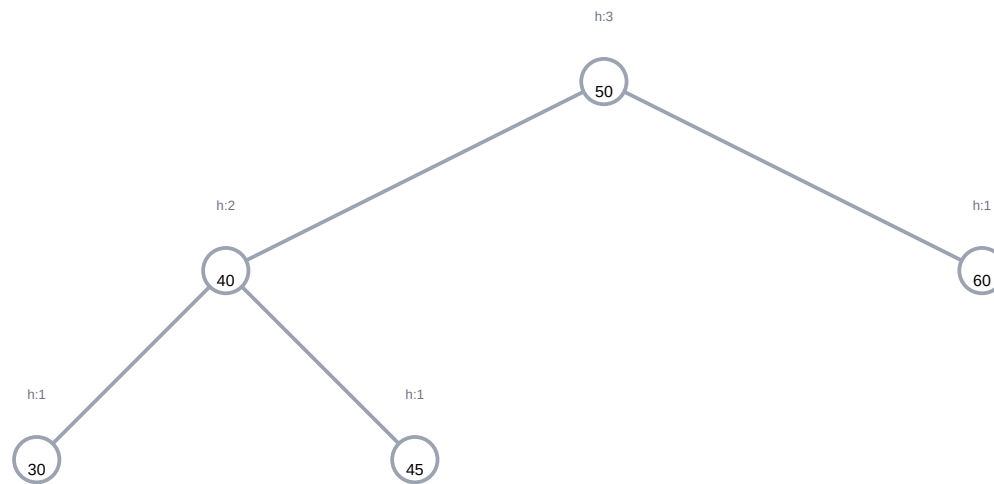

## Step 18 of 42

Traversing to insert undefined, currently at node 50

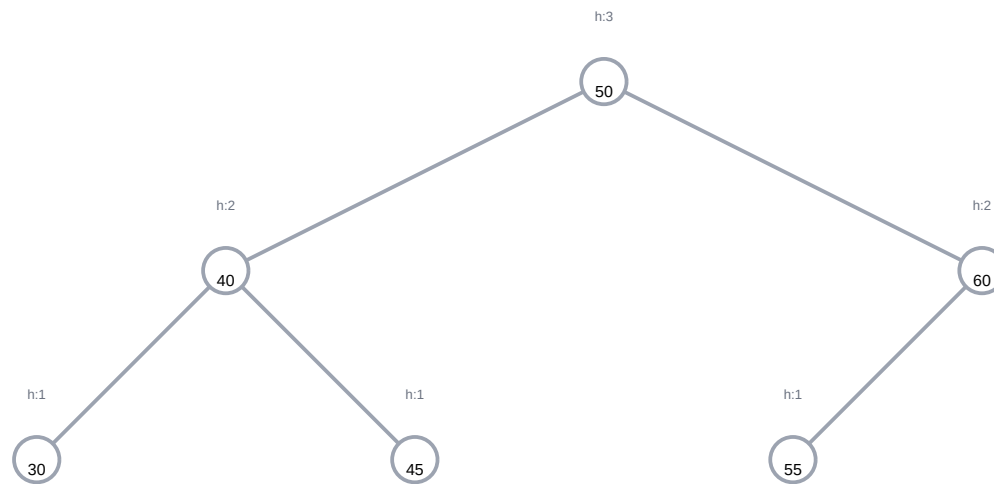

## Step 19 of 42

Traversing to insert undefined, currently at node 60

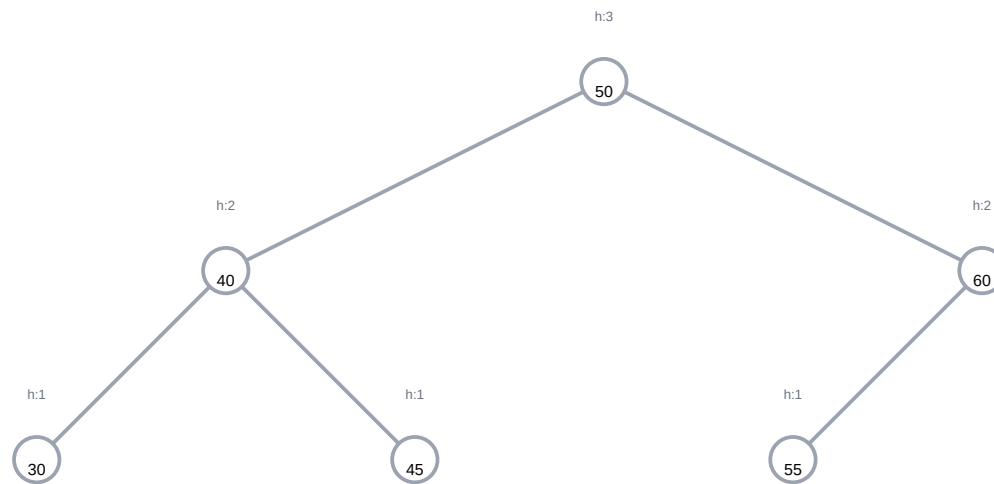

## Step 20 of 42

Value undefined inserted successfully

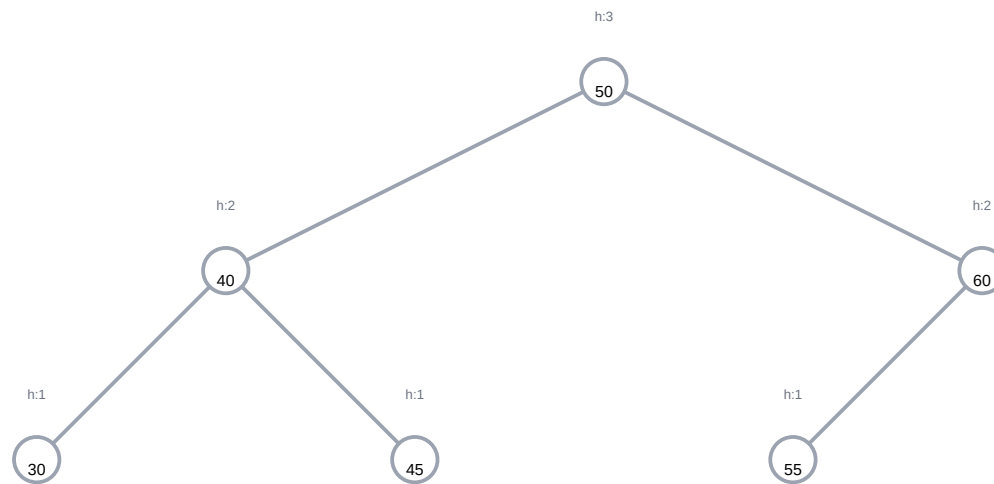

## Step 21 of 42

Starting insertion of value undefined

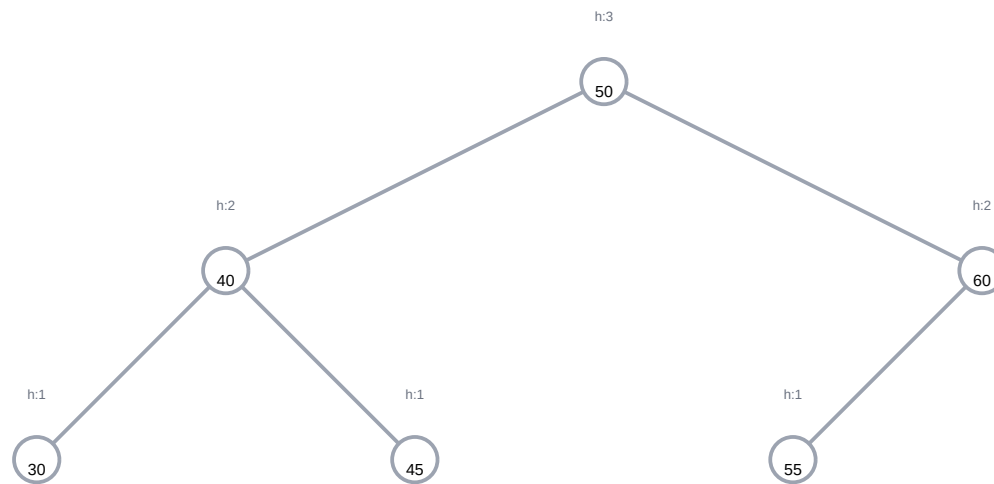

## Step 22 of 42

Traversing to insert undefined, currently at node 50

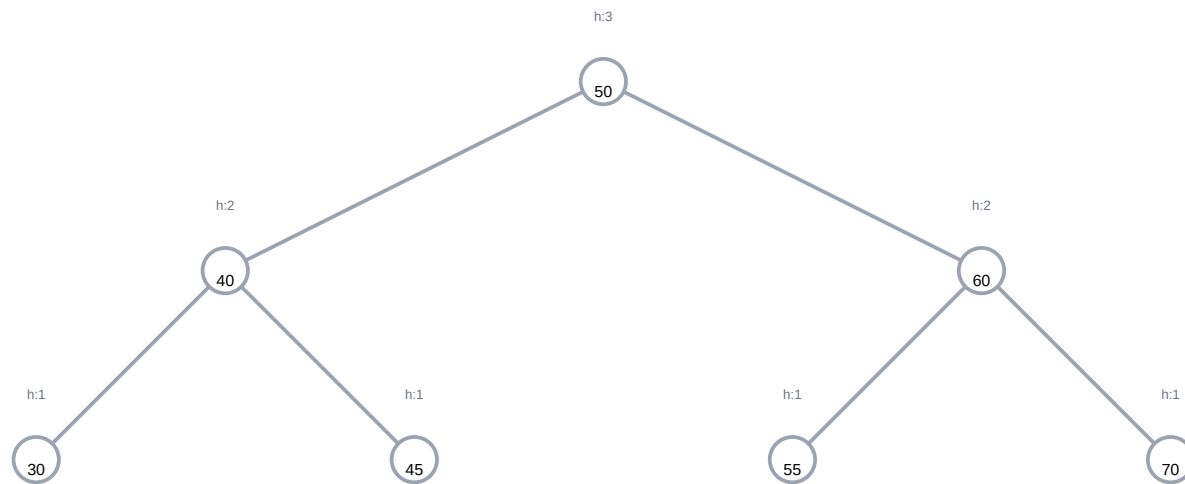

## Step 23 of 42

Traversing to insert undefined, currently at node 60

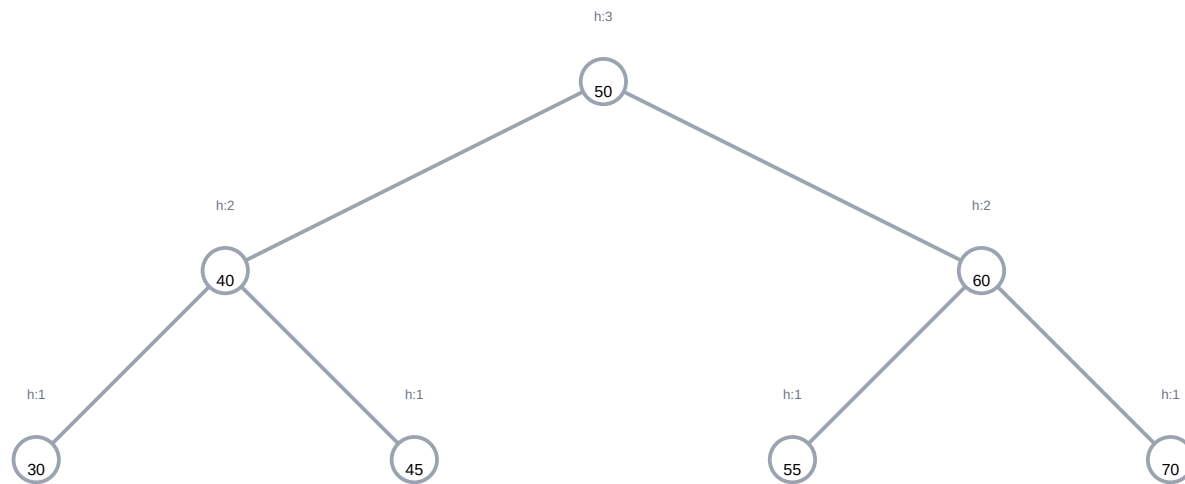

## Step 24 of 42

Value undefined inserted successfully

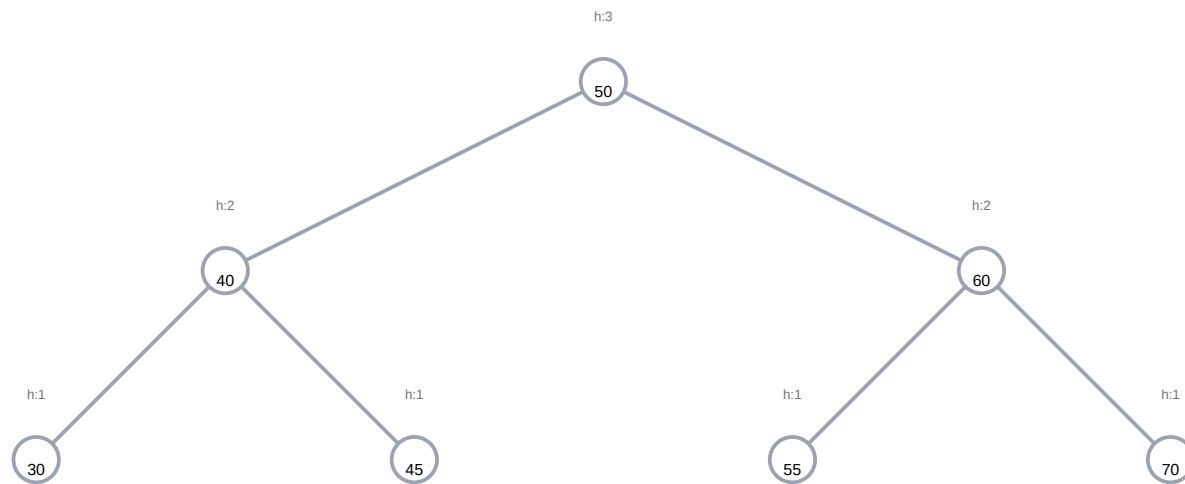

## Step 25 of 42

Starting insertion of value undefined

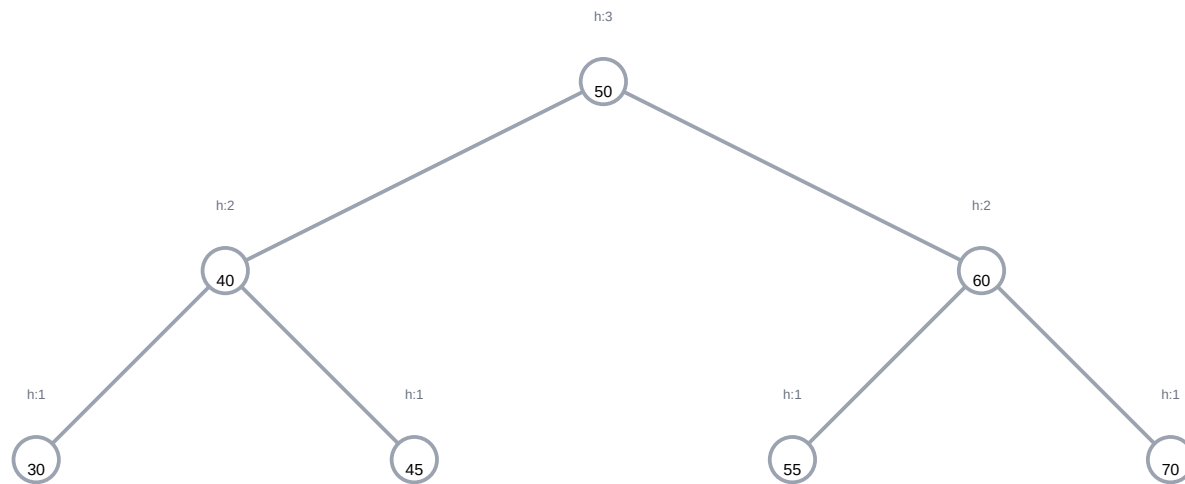

## Step 26 of 42

Traversing to insert undefined, currently at node 50

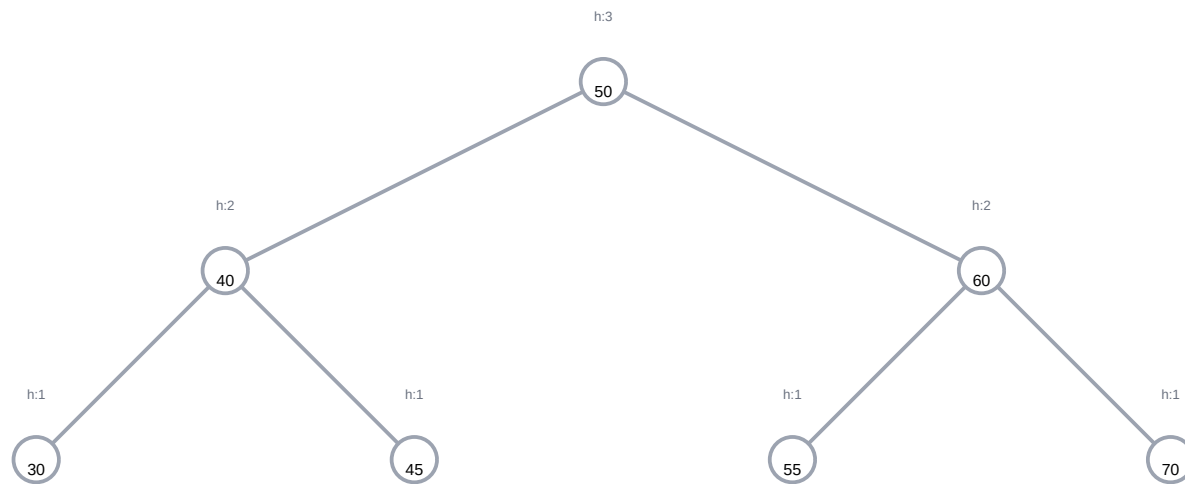

## Step 27 of 42

Traversing to insert undefined, currently at node 40

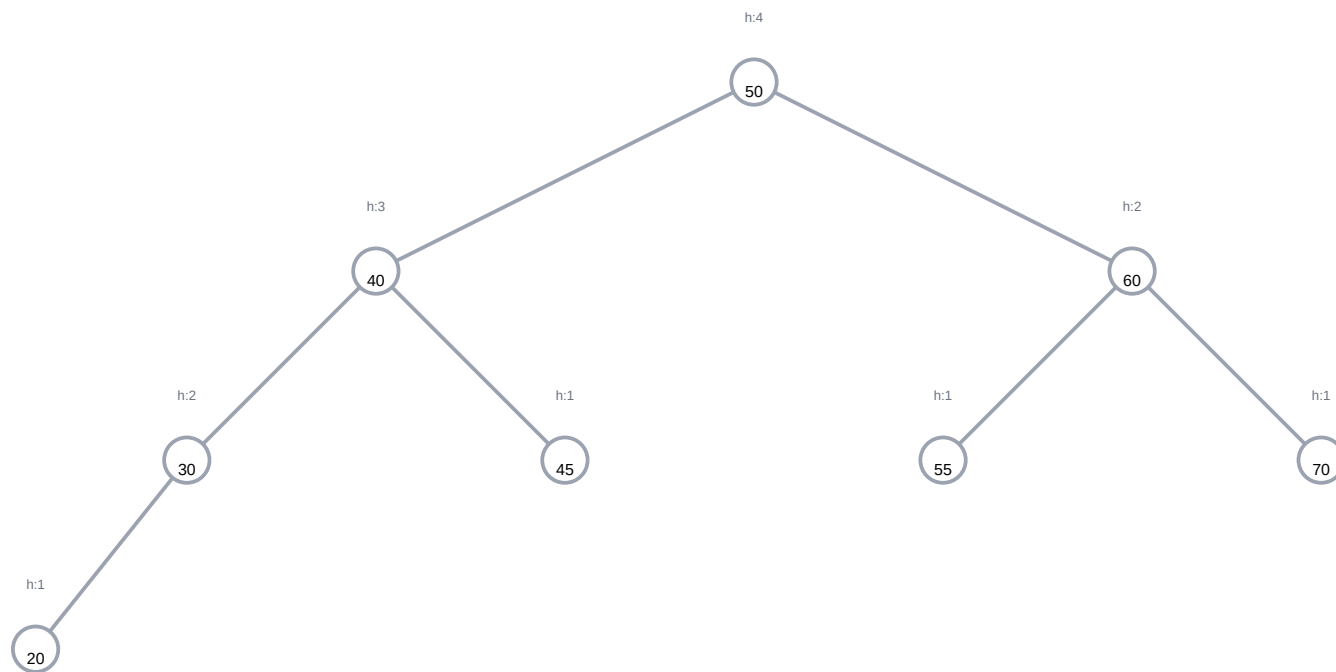

## Step 28 of 42

Traversing to insert undefined, currently at node 30

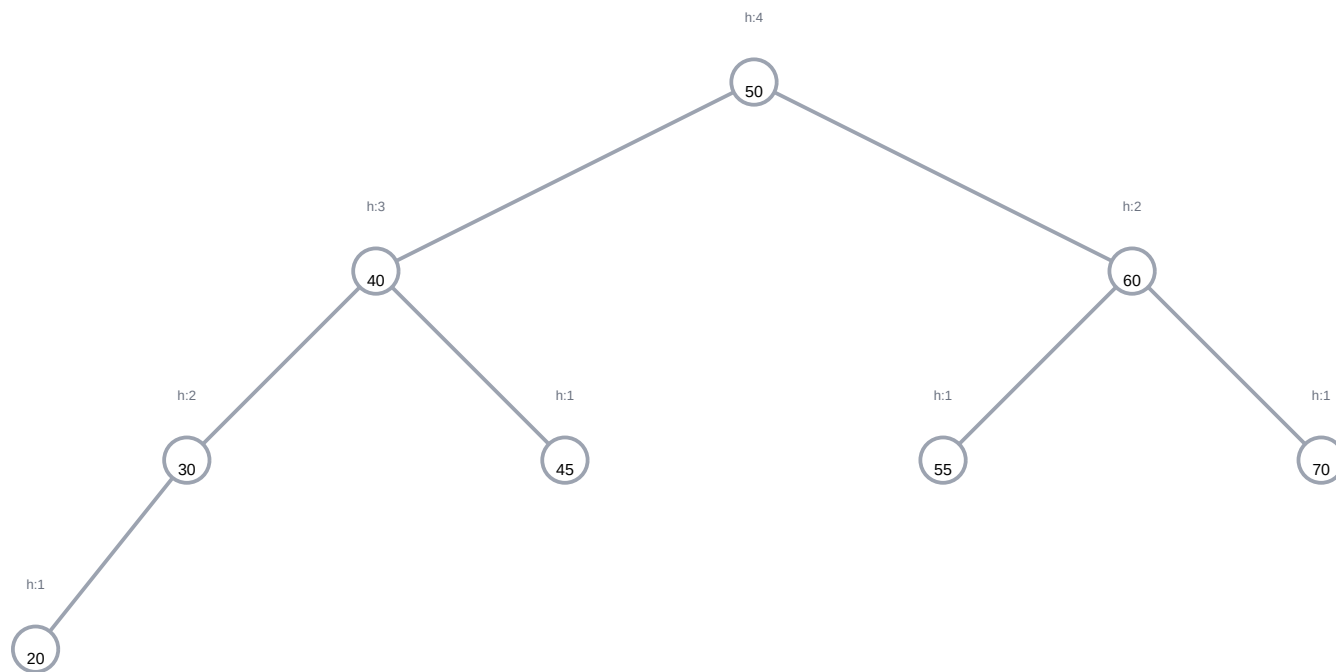

## Step 29 of 42

Value undefined inserted successfully

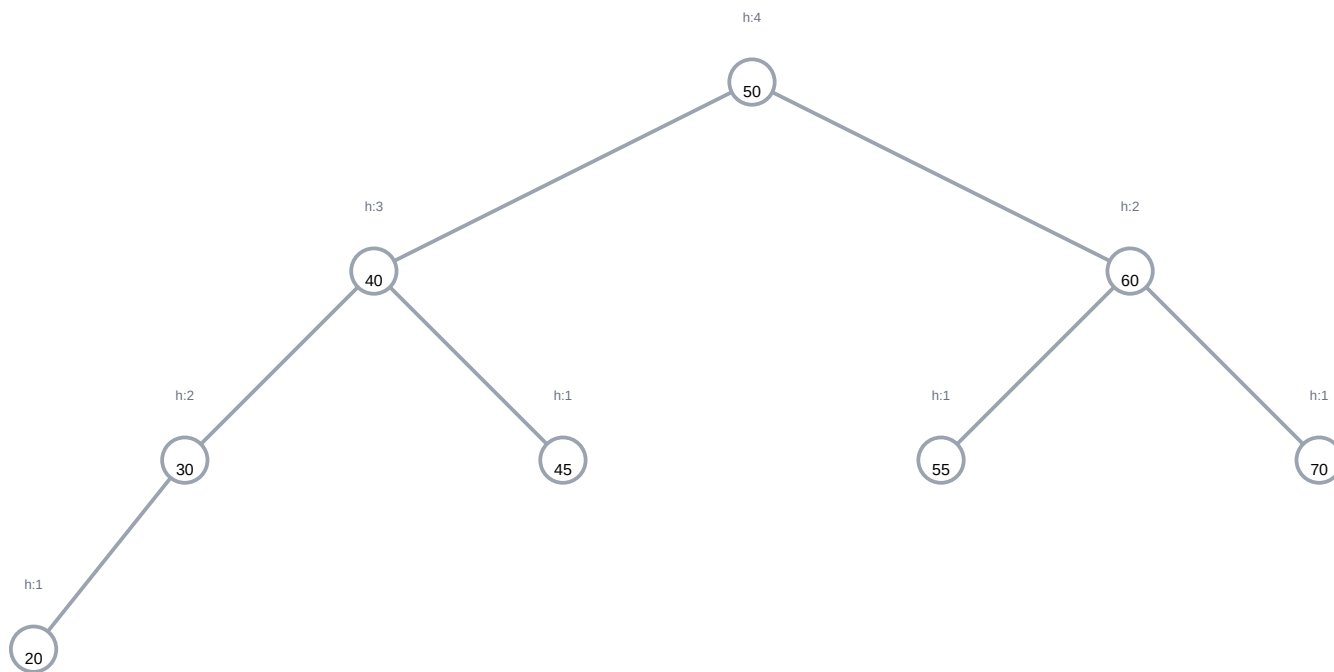

## Step 30 of 42

Starting insertion of value undefined

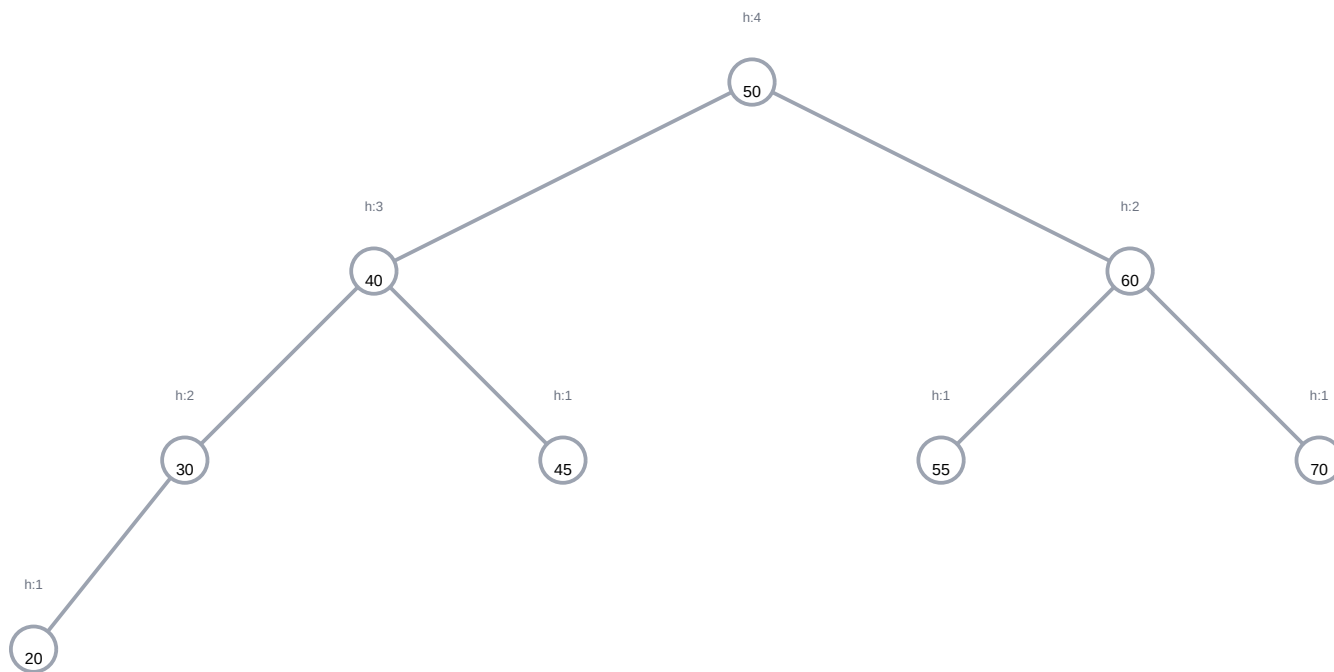

## Step 31 of 42

Traversing to insert undefined, currently at node 50

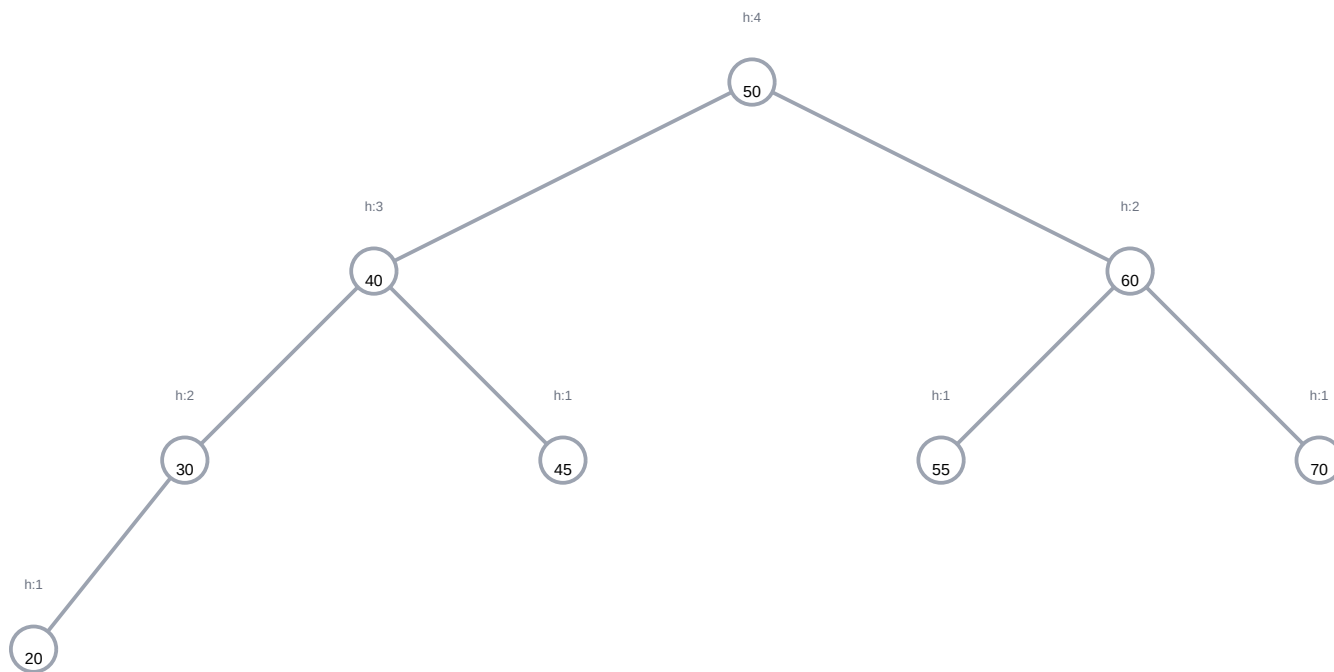

## Step 32 of 42

Traversing to insert undefined, currently at node 40

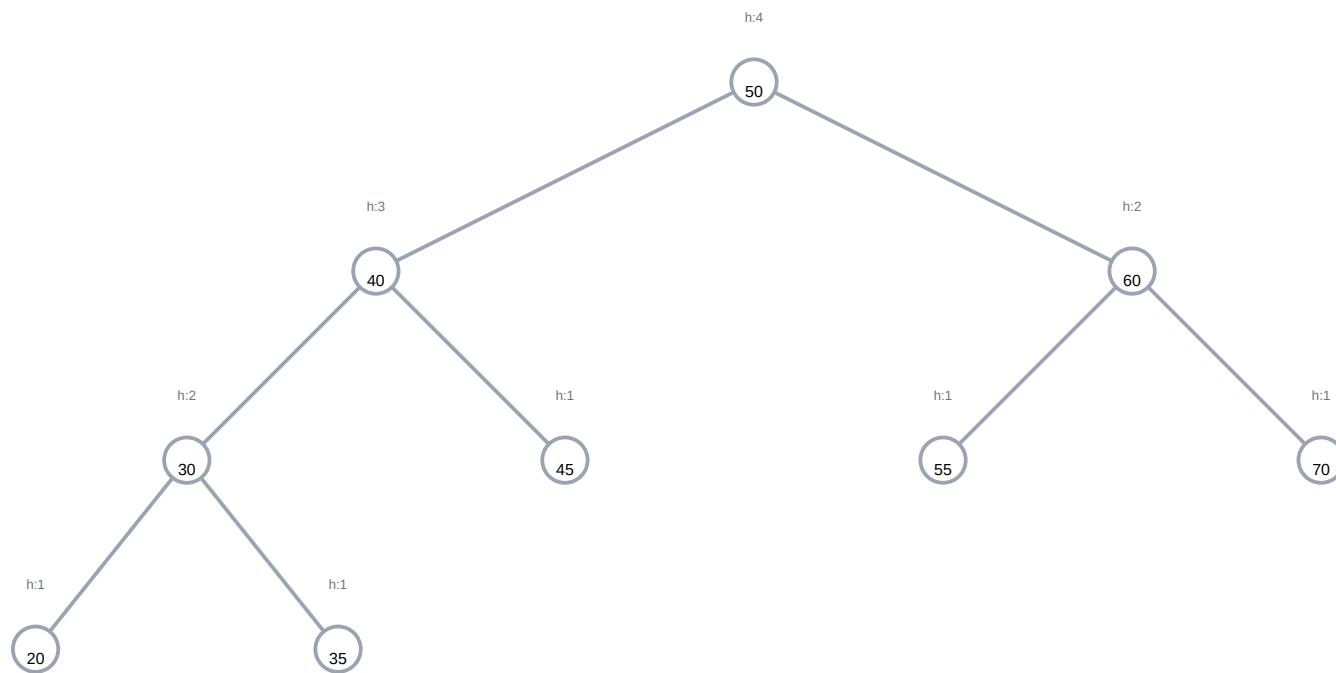

## Step 33 of 42

Traversing to insert undefined, currently at node 30

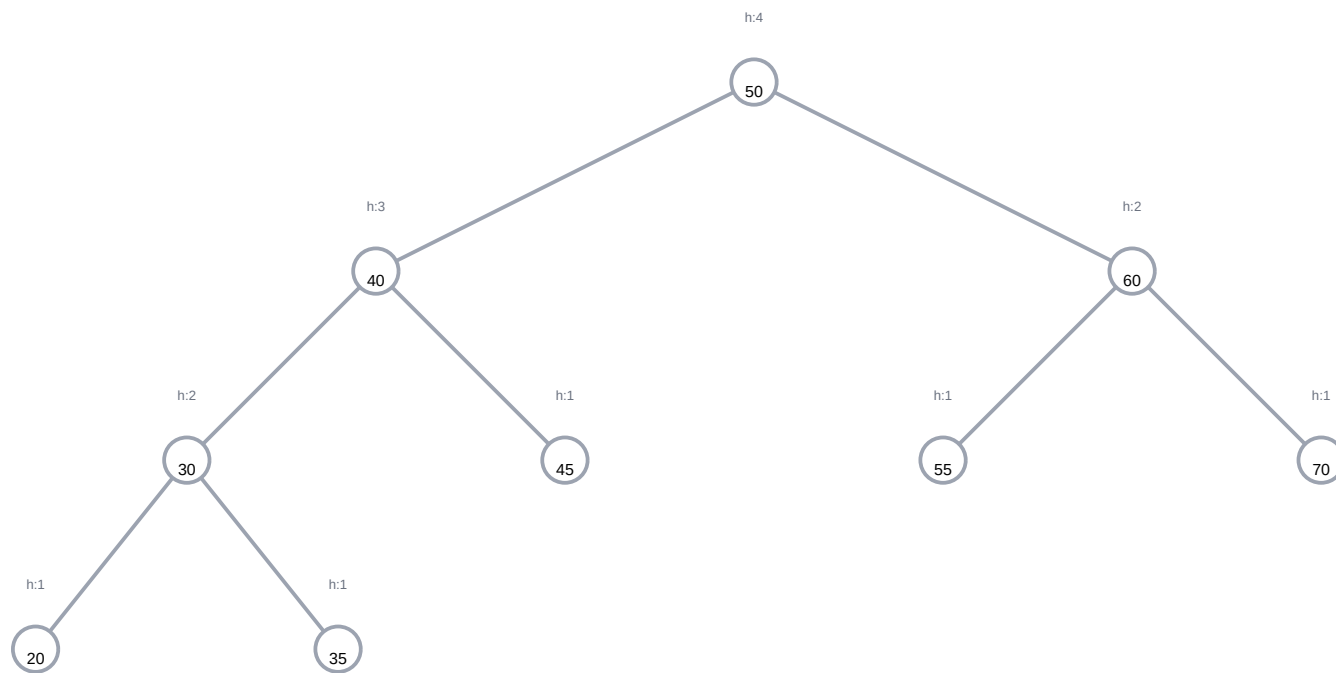

## Step 34 of 42

Value undefined inserted successfully

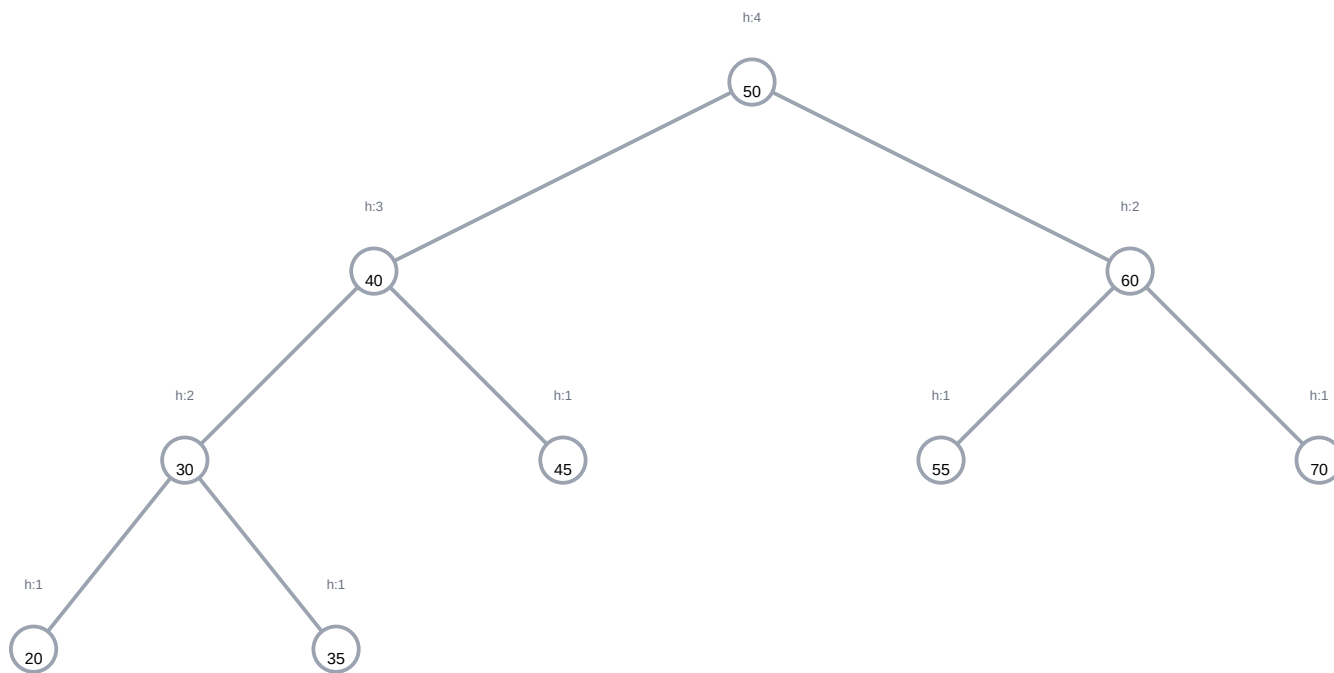

## Step 35 of 42

Starting insertion of value undefined

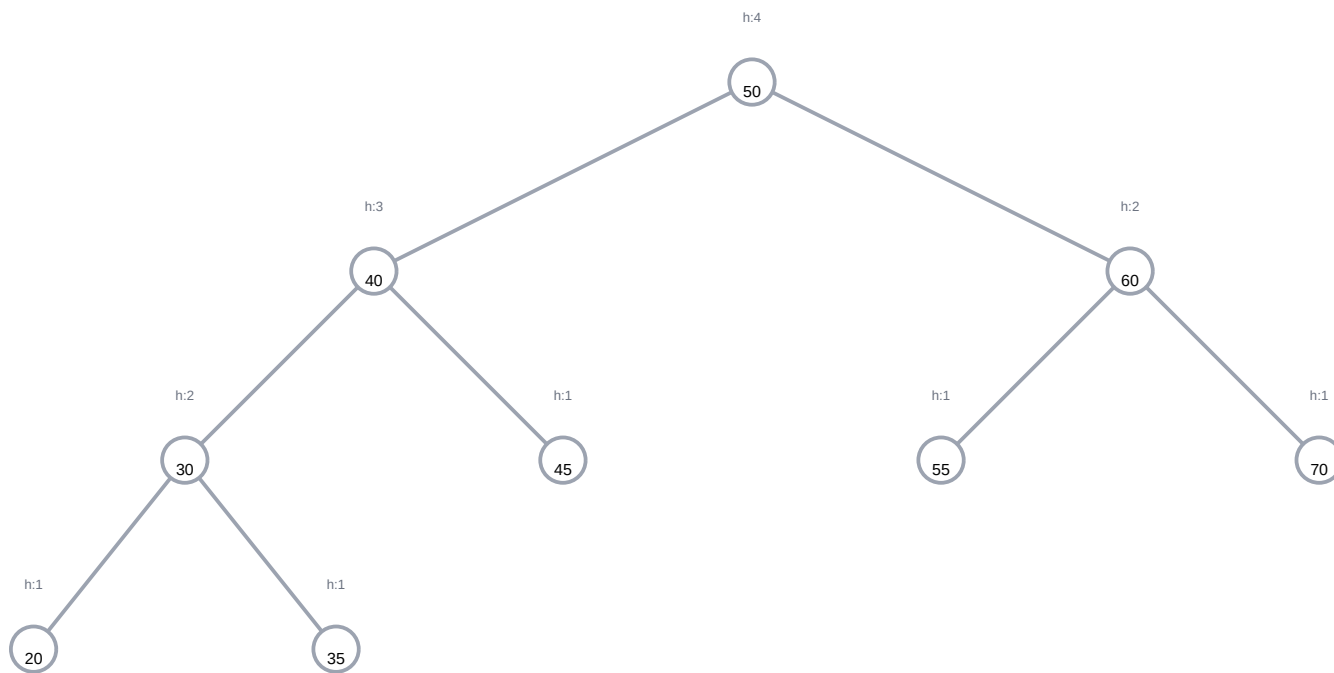

## Step 36 of 42

Traversing to insert undefined, currently at node 50

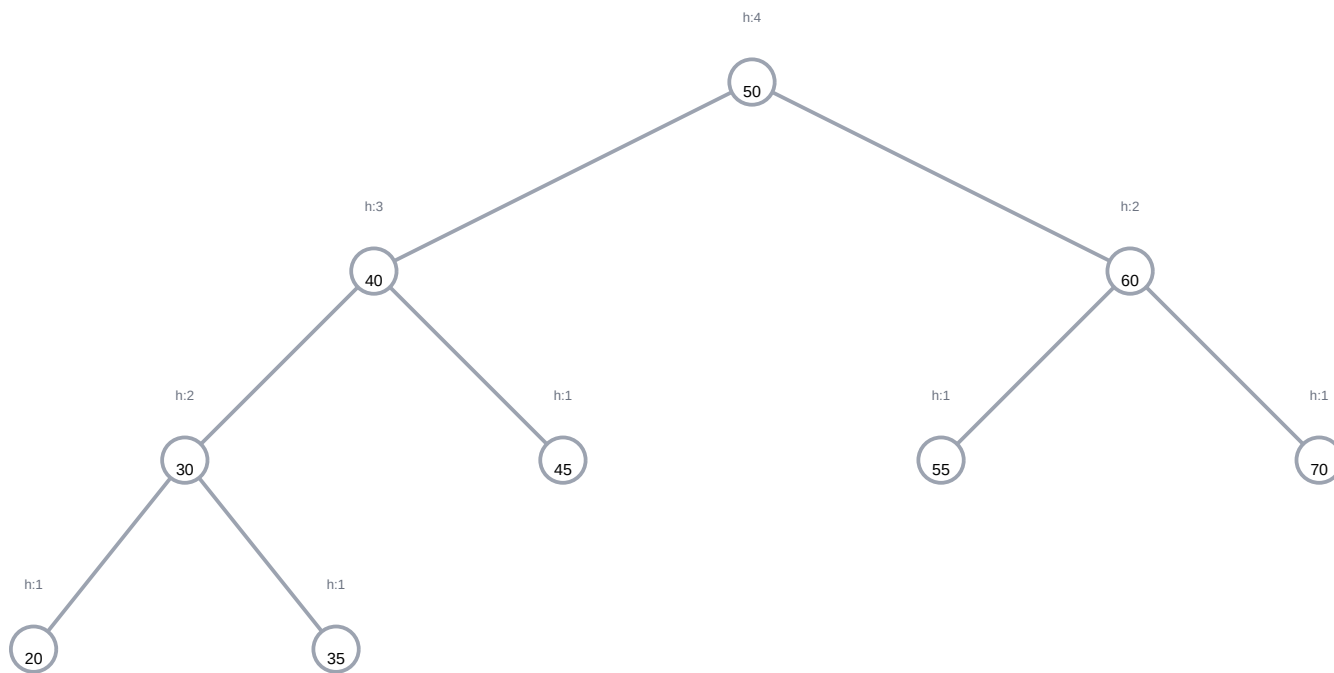

## Step 37 of 42

Traversing to insert undefined, currently at node 40

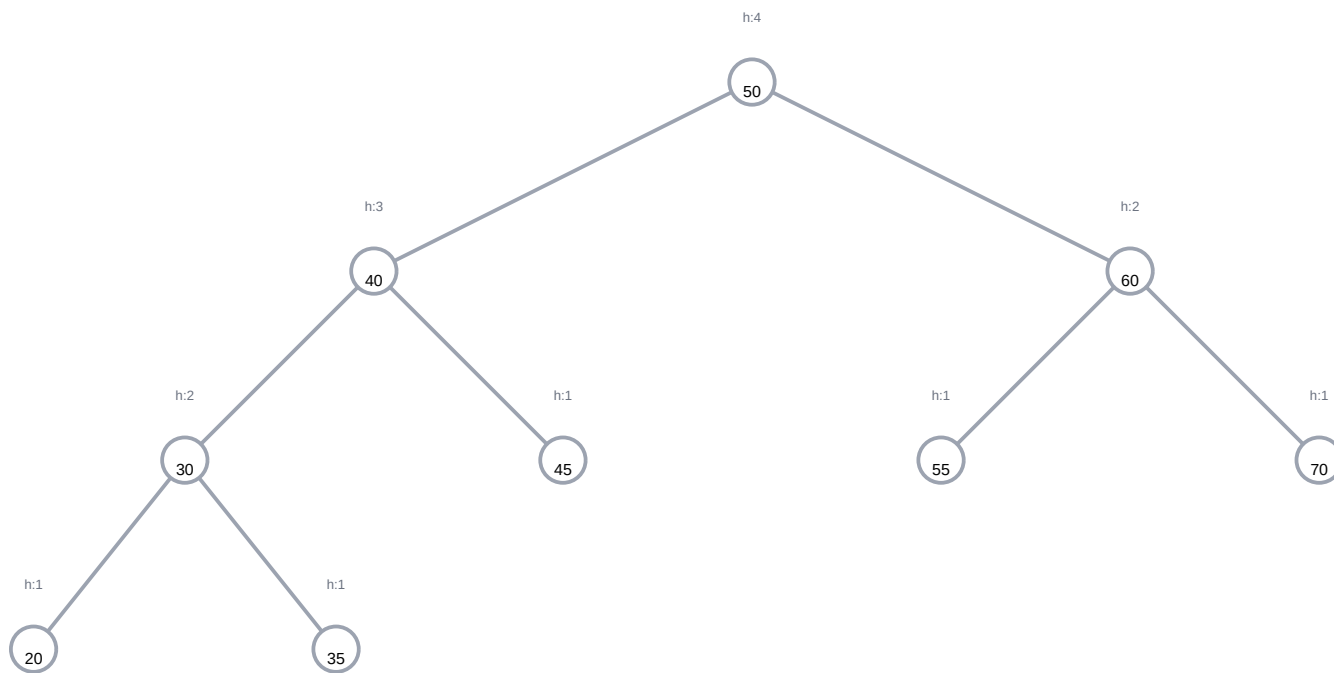

## Step 38 of 42

Traversing to insert undefined, currently at node 30

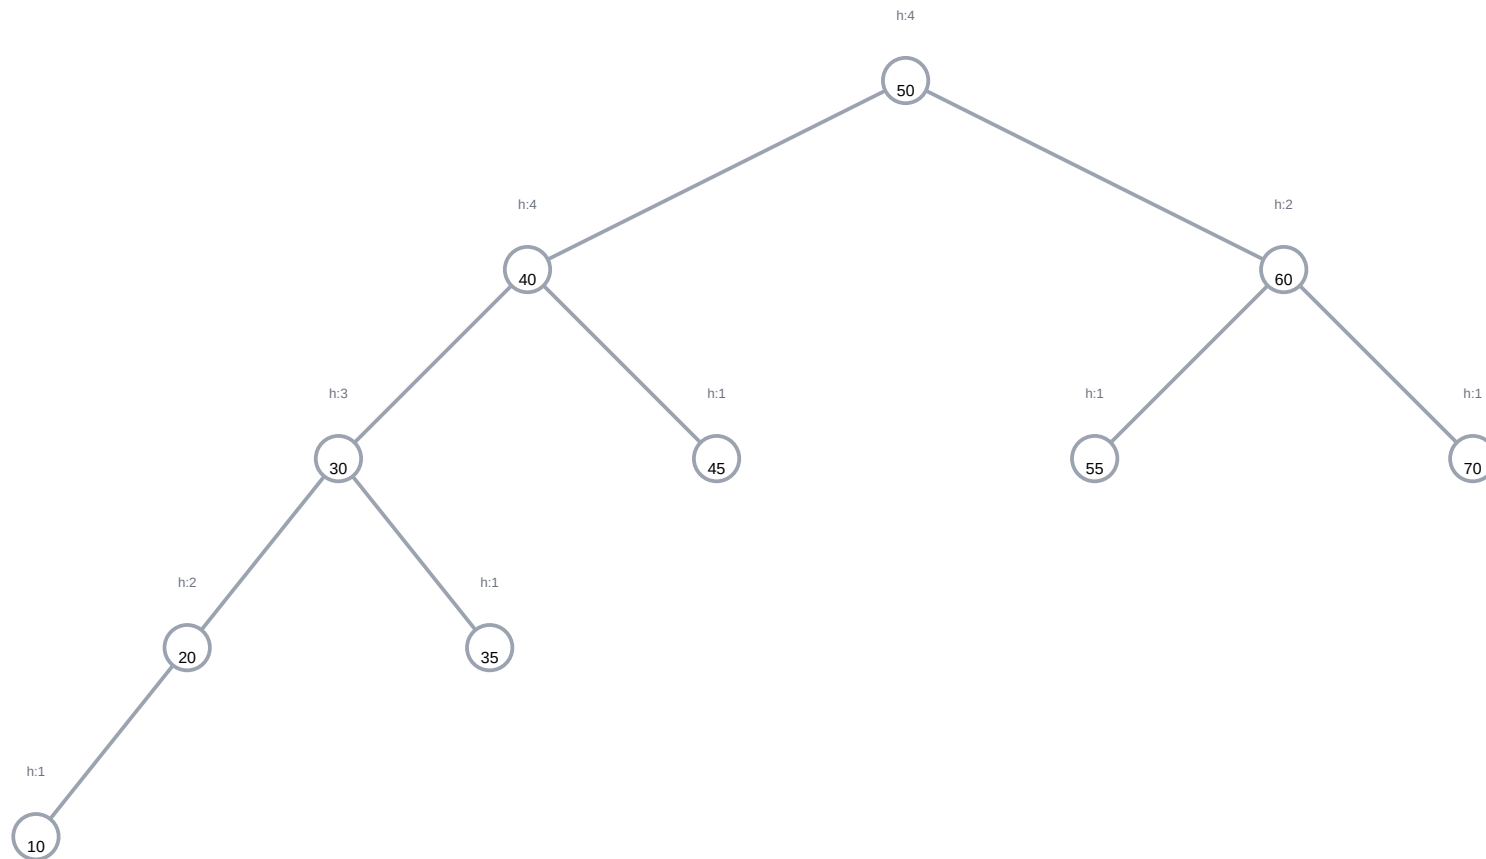

## Step 39 of 42

Traversing to insert undefined, currently at node 20

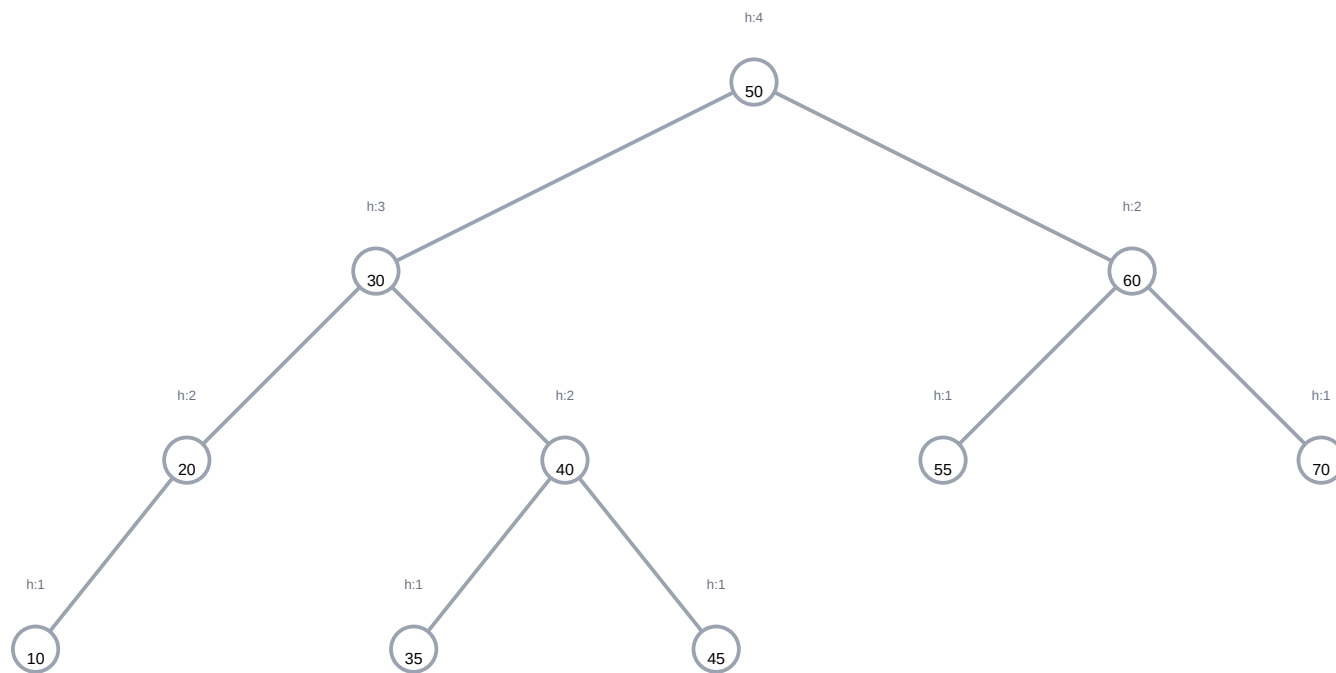

## Step 40 of 42

Balancing tree at node 40. Starting rotation

## Step 41 of 42

Value undefined inserted successfully

## Step 42 of 42

AVL tree construction complete!
